We would appreciate having a statement about your philosophy and work as an artist—either general or something specific about the piece(s) selected for this year's May Show to aid us in the preparation of gallery talks and in the release of publicity materials. For more space, use the back of this sheet.

My paintings often evoke universal feelings as loss of love, the glory of rediscovery and our relationships to natures' delicate balance. I'm involved in a philosophical probing of Self and Universe. I am deeply concerned about environmental issues and the threat of a nuclear holocaust. The painting "Give Peace a Chance" evolved from these feelings.

Color and texture are my building blocks. My color does not rest on scientific theory, but on feelings - one brush stroke built on the next.

I feel that a Work of Art must possess a soul.
